

From Director's Desk

Bharati Vidyapeeth University attracts large number of international students from across the globe. This University offers a multicultural and interdisciplinary learning environment. The University offers quality UG, PG and Research education at affordable cost.

Globalization needs an education system which sensitizes students to global issues and enables them to think beyond geographical borders. Bharati Vidyapeeth University is a favorite destination for international students and the faculty, since it provides an environment conducive to such learning.

Bharati Vidyapeeth University has established the International Students' Cell (ISC) as a single window for international students. This Cell facilitates easy access to any information concerning the International students such as rules of eligibility, admission, fees structure, guidance, counseling, examination system, etc. The International Students' Cell coordinates all these activities relating to international students. It also showcases the various education opportunities at the University.

The International students from all over the world are welcome to this University. We are happy to receive these students who, we hope, will become citizens of the world and go back to their countries as International representatives caring wisdom and knowledge they have gathered from this University.

Once again, I take this opportunity to extend our warm welcome to the prospective international students seeking admission to different courses in this University and wish them a success in their lives.

Prof. Dr. Keerti Mahajan
Director, International Students' Cell
Bharati Vidyapeeth University, Pune, India
