

## Nottingham Law School Summer Schools 2020

Our exciting summer school programmes will help students develop an international perspective on legal practice and enable them to travel abroad to meet students from other universities.

### Why students should take part in a Summer School?

- They will benefit from an overseas study experience.
- Students can immerse themselves in a new culture, meet people from different universities around the world.
- They will develop key skills and experiences to add to your CV to impress future employers.
- Increase their knowledge in and around their chosen subject.
- Develop an international perspective on legal practice.

We currently run summer schools in Strasbourg, Berlin and Geneva. Students can choose to attend more than one summer school, all courses are taught in English and attendees receive a certificate from the Dean of Nottingham Law School.

## Visa Information

If you are a citizen of the EU, EEA or Switzerland, you will not need visas for any of the Summer Schools. Other Nationals must check whether a visa is required. Each state may have its own rules, so do not assume that because you have visa free status in the UK that will apply elsewhere.

If you do need a visa, you will need a Schengen Visa. You must apply for this from the Embassy in London of the state you are visiting (and the main or first one in time if there are two or more). Once granted the visa is valid in all Schengen countries for its validity period (max 90 days) for multiple visits. You can apply up to three months before travelling, and are advised to do so in good time. It is YOUR responsibility to obtain the Visa. We can provide on request a letter confirming your participation in the Summer School, which is part of the application.

You should read the information provided by the various states and follow the instructions precisely.

We can provide you with a supporting letter to attach to your visa application
